

ABSTRACT

[0086] A method and system for policing resources in a computing utility facility includes policing resources in a computing utility facility includes intercepting a request for resources from an application admitted to access a pool of resources associated with the computing utility facility, acquiring an entitlement profile associated with the application to determine if application is entitled to requested resources over a time period, identifying an entitlement value and corresponding sliding window of the time period from the entitlement profile, determining if the request for resources exceeds the entitlement value associated with the sliding window and indicating application entitlement to the request for resources in response to the determining if the request is excessive.
